5. FIREFIGHTING MEASURES

Suitable / Unsuitable Extinguishing Media: Water. Do not use high volume water jet.
 Specific Hazards from Chemical: Cool closed containers exposed to fire with water spray. Fight any surrounding fire with suitable fire-extinguishing agents. Flood small amounts of decomposing products with water (add foaming agent to the water for better penetration). Remove any unaffected product. Control smoke with water spray. This product is an NFPA Class 1 Oxidizer.
 Special Protective Equipment: Wear self-contained breathing apparatus and protective suit.
 Other Information: Do not allow run-off from the fire fighting to enter drains or water courses.

6. ACCIDENTAL RELEASE MEASURES

SAFETY DATA SHEET

Personal Precautions: Avoid contact with skin, eyes and clothing. Avoid breathing dust. Wear personal protective equipment. Ensure adequate ventilation, especially in confined areas.

Methods and Materials for cleanup: Remove mechanically with care (e.g. with clean polyethylene plastic shovel). Avoid dust formation. Wash small residues with plenty of water.
Do not release into the environment. Do not contaminate water. Do not allow material to contaminate ground water system. If the product contaminates rivers and lakes or drains, inform respective authorities. Never add other substances or waste material to product residue. Offer surplus and non-recyclable solutions to a licensed disposal company.

7. HANDLING AND STORAGE

Handling: For personal protection see Section 8. Product is hygroscopic. Never pour product residue back into storage container. Risk of decomposition. Keep away from combustible materials. Avoid dust formation.

Storage: Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat. Avoid impurities (e.g. rust, dust or ash), risk of decomposition. Protect from moisture. Store away from other dangerous and incompatible materials.
(NFPA Oxidizer Class 1)
